PROJECTS

Jobby App

- Brought to life an all-encompassing job search platform, Jobby App.
- Engineered and optimized React components for key pages including Login, Home, Jobs, and Job item details, leveraging form inputs and event handlers; achieved a 50 percent reduction in bounce rates and a 30 percent increase in user retention.
- Developed and implemented React components for Login, Home, Jobs, and Job item details pages, integrating form inputs and event handlers; enhanced user experience and navigation, resulting in a 40 percent increase in user engagement metrics..

Food Munch

- Architected and developed a responsive website for Food Store, enabling seamless navigation for users to explore a comprehensive list of food items, detailed product information, and enticing promotional offers; tripled online engagement and conversion rates.
- Engineered a dynamic e-commerce website for Food Store, featuring a user-friendly interface for browsing food items, detailed descriptions, and exclusive offers; resulting in a 40 percent increase in online sales within the first quarter.
- Implemented product youtube videos by using bootstrap embed and model components.

Todos Application

- A robust task tracking system with CRUD capabilities, crafted to simplify task management.
- Designed with HTML, CSS and Bootstrap to ensure a user-friendly interface for managing tasks.
- Secure task persistence through local storage methods, ensuring that tasks are never lost.
- Dynamic UI updates through JavaScript event listeners and DOM operations for seamless CRUD operations.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, NoSQL.

Developer Tools: VS Code, Android Studio, Posterman

Technologies/Frameworks: GitHub, ReactJS, NodeJS, ExpressJS, Git, Mongo,

EXTRACURRICULAR

- Taught basic and training full C++/DSA in offline Mode.
- Developed a Front-end Page for a client named Like ASPIRE INTERIORS.
